

MINNAMURRA RAINFOREST 2007 to 2020

Envirowalk has been supplying our H30 FRP Mini **EnviroMesh** panels and custom **EnviroTread** panels into the Minnamurra walkway project for more than 14 – and still the work continues. Over this period of time Envirowalk has supplied the decking for approximately 4 kms of walking track and numerous viewing and resting platforms. Many visitors to the park have enjoyed the Mini-Mesh decking so much they have contacted Envirowalk to buy some for their own residential properties.

Envirowalk PRODUCTS USED:

H30 (30mm thick) Mini-**EnviroMesh** and Custom **EnviroTread** panels Type I resin, 10g UV9, ATH filler, E-Glass fibres with fine carborundum barefoot friendly grit anti-slip surface.
